PROFESSIONAL SUMMARY

Software engineer with 1+ year of experience building backend systems for regulated industries. Currently engineering a healthcare platform designed for compliance with a strong focus on system security, data safety, and reliability at scale. Strong in Java/Spring Boot microservices, FastAPI, React, and Nginx-based deployment, with a track record of measurable performance gains (~30% latency reduction) in production. Seeking Full Stack / Backend Engineering roles involving applied AI, where reliability and security-first system design matter.

EXPERIENCE

Member of Technical Staff - *AmbitOS (AI Prof Private Ltd)* May 2026 - Present

- Promoted to full-time engineer after a one-year internship; own end-to-end feature delivery on a healthcare platform built for multi-framework compliance.
- Built and maintained CI/CD pipelines (GitHub Actions) with automated security scanning gating deployments from staging to production.
- Design and maintain real-time audio (web & telephony) systems using LiveKit, including consent-capture and call-recording workflows aligned with data-retention policy.
- Build and maintain secure backend APIs in FastAPI with cryptographic integrations - encryption at rest/in transit and key management.

Full Stack Developer Intern - *AmbitOS (AI Prof Private Ltd, formerly Hitloop)* May 2025 - Apr 2026

- Contributed to a healthcare system engineered for compliance, covering PHI access control, audit logging, and data residency.
- Built role-based dashboard features and integrated real-time voice AI into a patient-facing conversational agent.
- Built secure, scalable backend APIs in FastAPI, including cryptographic integrations.
- Cut real-time interaction latency ~30% by redesigning event handling and API flow.

Technical Intern - *Maang Technologies (Remote)* May 2024 - May 2025

- Developed and deployed Spring Boot microservices following industry-standard architectural practices.
- Containerized backend services with Docker and deployed via basic Kubernetes orchestration.
- Designed and consumed RESTful APIs, improving service modularity, scalability, and maintainability.

PROJECTS

Resume-Hub | Live Demo - *MERN, Gemini API*

- Built a full-stack resume analysis platform providing ATS compatibility checks, job recommendations, and instant interview-question generation.
- Integrated the Gemini API for resume parsing and AI-driven insights.

Back-End Application for Shopping Cart | GitHub - *Spring Boot Microservices, Docker, Kubernetes*

- Designed a microservices-based backend with RESTful APIs for core shopping-cart functionality.
- Containerized services with Docker and orchestrated deployments with Kubernetes, focused on scalability and fault isolation.

University Discussion & Collaboration Platform | GitHub - *MERN, Tailwind CSS, Material UI*

- Built a responsive platform for student-mentor discussions, scheduling, and result publication.
- Secured 1st place in a college-level hackathon.

Heart Disease Classification Using ML | GitHub - *Scikit-learn, Pandas, NumPy*

- Built an ML pipeline predicting heart disease from clinical parameters, using a majority-voting ensemble across multiple classifiers to improve reliability.

SKILLS

Languages: Java, C, Python, JavaScript
Backend & Frameworks: Spring Boot (Microservices), FastAPI, Node.js, REST APIs
Frontend: React.js, Tailwind CSS, Material UI
DevOps & Cloud: Docker, Kubernetes, CI/CD, Microservices Architecture, Nginx
Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis
Compliance & Security: HIPAA, GDPR, SOC2, ISO 27001, RBAC, Encryption (At-Rest/In-Transit), Audit Logging
AI/ML & Real-Time Systems: LLM Integration, STT Integration, TTS Integration, Scikit-learn, Pandas, NumPy, LiveKit
Tools & Platforms: Git, GitHub, IntelliJ, VSCode, Jupyter Notebook

EDUCATION

B.Tech in Computer Science, CGPA: 9.43 - *RGUKT, IIIT-RK Valley, AP, India* 2022 - 2026

Pre-University Course (Equivalent to Intermediate), CGPA: 9.94 - *RGUKT, IIIT-RK Valley, AP, India* 2020 - 2022

ACHIEVEMENTS

- 1st and 3rd place in campus hackathons (2025 & 2024).
- AIR 6009 in GATE CS 2025 with 519 score.
- 450+ DSA problems solved on LeetCode.
